NOTES

Recommend approval to procure engineering services for the Brampton Road Connector from Thomas & Hutton in the amount of \$475,400.00.

The Georgia Department of Transportation (GDOT) is planning to install a new rail spur and a new Brampton Road Connector from Burnsed Boulevard, running northeast and tying it to Brampton Road. The new construction will be in conflict with the existing 48-inch Industrial and Domestic water line, necessitating the relocation of that line. The 48-inch water line is connected to the line along Jimmy DeLoach Parkway and Grange Road.

This is a sole source procurement because Thomas & Hutton has recently completed the 48-inch water line relocations for Jimmy DeLoach Parkway and Grange Road. Additionally, GDOT is requiring the City to submit the final relocation design for the water line no later than June 2018. Contracting with Thomas & Hutton will allow the City to complete the design in accordance with GDOT's required deadlines and will prevent the duplication of work.

Delivery: As needed. Terms: Net 30 days. The vendor is:

S.S. Thomas & Hutton (Savannah, GA)^(B) \$475,400.00

A pre-proposal conference was not conducted as this is a sole source procurement. (B) Indicates local, non-minority owned business. Recommend approval.
