CONTRACT TERM (IF APPLICABLE) April 27, 2017 – April 26, 2020		
M/WBE (IF APPLICABLE) N/A		
MATRIX (IF APPLICABLE) N/A		

NOTES

Recommend approval of Contract Modification No. 4 for internet services to Level 3 Communications for the term of contract. The original contract was to provide the implementation, maintenance, and support of dedicated internet access service with the ability to provide connectivity at the City of Savannah Data Center. The original request for proposals stated that the City of Savannah had to award two separate contracts: One for primary service at the Data Center and one for primary service at the Critical Workforce Shelter. This was done in order to prevent dependency issues on either provider in the event that one service provider's route failed.

This modification is for Level 3 Communications to relocate the Level3 circuit to the new Data Center. The relocation request is zero dollar modification, but does require an extension of the service contract. The terms of the current contract of 500MB service for \$3,290.00 per month remain intact. With this extension, the service contract will remain in place for three years.

The original contract was approved by Council on August 8, 2013 for \$29,160.00. The total cost of this contract to date, including this modification, is \$139,548.00.

Recommend approval of Contract Modification No. 4 to extend the term of the contract to Level 3 Communications.
