MATRIX (IF APPLICABLE) N/A		
NOTES		
<p>Recommend approval to procure Malwarebytes Endpoint Protection from Layer 3 Communications in the amount of \$25,000.00. The Department of Information Technology uses this software to prevent malware from affecting the City of Savannah and will use it to prevent malicious malware from occurring. It is also used to clean-up existing malware. Multi-Vector Protection employs multiple layers of technology to address advanced threats that leverage different attack vectors and techniques. It defends endpoints against all types of threats with a layered approach that leverages static and dynamic detection technologies to address every stage of an attack. This protection helps the City remain safe from malicious malware that could prevent City operations if an event were to occur. The cost of the annual subscription is \$25,000.00 per year for four additional years. This is the second year of the annual subscription. This is a sole source because Layer 3 Communications currently holds the City contract for Network Maintenance under Event No. 3886. They were also the only vendor who was able to supply and implement the necessary software when it was needed by the City during the malware attack. It is critical to have maintenance and support from the original provider to ensure authorized, knowledgeable, and timely vendor support when and if it is necessary. Delivery: As requested. Terms: Net 30 days. The vendor is:</p> <p>S.S. Layer 3 Communications (B - Savannah, GA) \$25,000.00</p> <p>A pre-bid conference was not conducted as this is a sole source purchase. (B) Indicates a local, non-minority owned business. Recommend approval.</p> <p>Local Available: Yes DBE Available: No Total Sent: 1 DBE Sent: 0 Total Received: 1 DBE Received: 0 Vendor federally debarred or suspended: No</p>
