## NOTES

Recommend approval to award a two-year software service contract to Motorola Solutions, Inc. for the total amount of \$273,586.80. The payment for the first year will be in the amount of \$136,243.50 and payment for the second year will be in the amount of \$137,343.30.

The City of Savannah operates a Motorola Astro 25 Digital Trunked Radio Network in cooperation with Chatham and five other counties in southeast Georgia. The network is managed and controlled by a large Microsoft based Wide Area IP network, which requires periodic security maintenance, patches and upgrades. This software user agreement with Motorola Solutions, Inc. provides for total service and maintenance of the IP networking portion of the Astro 25 radio network and all hardware, software, and applications required for operation of the radio system IP network. This is a sole source because the existing radio network is made up of Motorola equipment and solutions. The software is proprietary to Motorola Solutions, Inc. and is only supported by that vendor.

Delivery: As needed. Terms: Net 30 days. The vendor is:

S.S. Motorola Solutions, Inc. (Atlanta, GA)<sup>(D)</sup> \$273,586.80

A pre-bid conference was not conducted as this is a sole source purchase. (D) Indicates a non-local, non-minority owned business. Recommend approval.
