

METROPOLITAN PLANNING COMMISSION

"Planning the Future - Respecting the Past"

M E M O R A N D U M

DATE: **NOVEMBER 24, 2020**

TO: **THE MAYOR AND ALDERMEN OF THE CITY OF SAVANNAH**

FROM: **METROPOLITAN PLANNING COMMISSION**

SUBJECT: **MPC RECOMMENDATION**

PETITION REFERENCED:

Rezone 23 Weiner Drive from RSF-6 to OI-T
Sarah Heymen, Owner
Ed Garvin, Agent
PINs: 20494 03004
Acreage: .20 Acres
Aldermanic District: 4 (Palumbo)
County Commission District: 1 (Stone)
File No. 20-004500-ZA

MPC ACTION:

Approval of the requested rezoning from an RSF-6 (Single Family Residential) zoning classification to an OI-T (Office Institutional - Transition) zoning classification.

MPC STAFF RECOMMENDATION:

Approval of the requested rezoning from an RSF-6 (Single Family Residential) zoning classification to an OI-T (Office Institutional - Transition) zoning classification.

MEMBERS PRESENT: 8 + Vice-Chairman

METROPOLITAN PLANNING COMMISSION
Planning the Future - Respecting the Past

TO: The Mayor and Aldermen, City of Savannah

FROM: The Planning Commission

DATE: November 24, 2020

**SUBJECT: Rezone 23 Weiner Drive from RSF-6 to OI-T
Sarah Heymen, Owner
Ed Garvin, Agent
PINs: 20494 03004
Acreage: .20 Acres
Aldermanic District: 4 (Palumbo)
County Commission District: 1 (Stone)
File No. 20-004500-ZA**

Jordan Holloway, MPC Project Planner

ISSUE:

A request to rezone .20 acres at 23 Weiner Drive from the RSF-6 (Single Family Residential) zoning classification to a OI -T (Office Institutional - Transition) zoning classification.

BACKGROUND:

The subject property is a residentially zoned parcel located on the northwest corner of the intersection of East Montgomery Crossroads and Weiner Drive. 23 Weiner Drive is an undeveloped parcel that historically had a single-family residence. A recent rezoning request for 24 Weiner Drive (RSF-6 to OI-T) was approved by the MPC at the October 13, 2020 meeting.

The Skyland Terrace subdivision was developed as a single family detached residential subdivision, where parcels are generally between 7,000 and 9,000 square feet in size. Nonresidential uses in the area include two contractor offices, adjacent to the west of 504 E Montgomery Cross Road, which were rezoned to B-N during the Zoning Ordinance update. Also, professional offices, commercial service, and a childcare center are present in the area.

FACTS AND FINDINGS:

1. **Public Notice:** On November 6th, mailed notice of the Planning Commission meeting was sent to all property owners within 300 feet of the subject property, signs were posted on site and required newspaper advertisements were run. The notice included instructions on how to access the meeting over the internet. As of the posting of the agenda, staff has not received any

comments from the public.

2. **Existing Development Pattern:**

The land uses and zoning districts surrounding the subject property include:

<u>Location</u>	<u>Land Use</u>	<u>Designation</u>
North	Single Family Residential	RSF-6
East	Single Family Residential	RSF-6
South	East Montgomery Crossroads / Office	OI-T
West	Single Family Residential	RSF-6

The development pattern in the vicinity of the subject property is similar to other southside Savannah neighborhoods that abut arterial streets. It includes, in this case, a single-family neighborhood that is accessed via an arterial roadway. While many of the nearby uses are nonresidential because of the proximity to Montgomery Crossroads, the Skyland Terrace subdivision has stable housing stock and is largely protected from the impacts of commercial uses. In addition, due to the road network, the neighborhood suffers from little cut through traffic and trips not related to the residences within the subdivision.

3. **Future Land Use:** The Comprehensive Plan Future Land Use Map designates the subject property as Commercial Neighborhood. The proposed district is consistent with this classification. Adjacent properties on the north side of East Montgomery Crossroads were also given this designation. Likely, in consideration of the fact these homes abutted an arterial street and properties would eventually be combined to create parcels of adequate size for nonresidential use.

4. **Existing RSF- (Single Family Residential) District:**

- a. **Intent of the RSF Districts:** “The Residential Single-family (“RSF”) districts are established to allow single-family detached development on varying lot sizes which are indicated by the number (suffix) following the district name.”
- b. **Allowed Uses:** Allowed uses in the RSF district are attached to the agenda. (*Table 1*).
- c. **Development Standards:** The development standards are attached to the agenda. (*Table 2*).

5. **Proposed OI-T (Office Institutional - Transition) Zoning District:**

- a. **Intent of the OI-T District:** The Office and Institutional-Transition (“OI-T”) district is established to facilitate the orderly transition of properties originally developed for residential use to limited nonresidential uses. These properties are located in areas where increased automobile traffic, road widening or other factors have diminished residential viability, resulting in the need for a transitional area to buffer surrounding residential

properties.

b. **Allowed Uses:** The allowed uses are attached to the agenda item. *Table 1.*

c. **Development Standards:** The development standards are attached to the agenda. *Table 2.*

6. **Transportation Network:** The subject property is accessed from an existing semi-circle driveway that intersects with both East Montgomery Crossroads and Weiner Drive. Weiner Drive is an unclassified residential street. The pavement width is approximately 20 feet. East Montgomery Crossroads is classified as an arterial roadway. It was widened over 30 years ago to a four-lane divided roadway with an approximate right-of-way width of 90 feet.
7. **Public Services and Facilities:** The property is served by the Savannah Police Department, City fire protection and by City water and sewer services.

ADDITIONAL REVIEW CRITERIA:

a. Suitability and Community Need

- I. *Whether the range of uses permitted by the proposed zoning district is more suitable than the range of uses that is permitted by the current zoning district.*

Staff Comment: The range of uses permitted in the OI-T zoning district is compatible with some of the uses found along Montgomery Crossroads but not within the interior of Skyland Terrace.

- II. *Whether the proposed zoning district addresses a specific need in the county or city.*

Staff Comment: Based on observation, there does not appear to be a shortage of opportunities to develop small scale nonresidential space within the City of Savannah. However, the circumstance along Montgomery Crossroads as it relates to development pressure is unique. Staff will be undertaking a corridor study for the Montgomery Cross Road area to further define this area and set development goals and performance standards.

b. Compatibility

- I. *Whether the zoning proposal will adversely affect the existing use or usability of adjacent or nearby property;*

Staff Comment: There are examples nearby of residential uses converting to nonresidential use. There do not appear to have been adverse impacts on adjacent properties.

- II. *Whether the zoning proposal is compatible with the present zoning pattern and conforming uses of nearby property and the character of the surrounding area.*

Staff Comment: The proposed OI-T district is compatible with some other uses that abut Montgomery Crossroads and can serve as a transition more so than a business zoning district.

III. Whether there are other existing or changing conditions affecting the use and property which give supporting grounds for either approval or disapproval of the zoning proposal.

Staff Comment: This is a property that has always been residentially developed until the existing home was demolished. The neighborhood has remained stable. Some residential conversions have taken place in the vicinity, those lots for the most part, seem to have merged into the neighborhood well.

c. Consistency

Whether the zoning proposal is in conformity with the policy and intent of the Comprehensive Plan and other adopted plans, such as a redevelopment plan or small area plan.

Staff Comment: The proposed zoning for the subject property is consistent with the Future Land Use Map.

d. Reasonable Use

Whether the property to be affected by the zoning proposal has a reasonable use as currently zoned.

Staff Comment: Under the current zoning the property owner does have reasonable use.

e. Adequate Public Services

Whether adequate school, public safety and emergency facilities, road, ingress and egress, parks, wastewater treatment, water supply and stormwater drainage facilities are available for the uses and densities that are permitted in the proposed zoning district.

Staff Comment: Public services are available and could accommodate the uses permitted in the proposed district.

f. Proximity to a Military Base, Installation or Airport

In accordance with the O.C.G.A. §36-66-6, when a rezoning is proposed for property located within 3,000 feet of a military base, installation or airport, or within the 3,000-foot Clear Zone and Accident Prevention Zones I and II as prescribed in the definition of an Air Installation Compatible Use Zone that is affiliated with such base.

The subject properties are not within 3,000 feet of a military base or within the other listed zones.

5.15.9 Additional Requirements Applicable to the Office and Institutional Districts

a. All OI districts

Principal use dwellings shall be at least 450 square feet.

b. OI-T District

i. Location

Property zoned OI-T shall be located along a street classified as a collector or arterial as identified in [Appendix A-1](#).

ii. Site Development Plan requirement

The Site Development Plan for the conversion of an existing structure and for new construction shall meet the standards of Sec. 3.8, Development Plan Review. The Site Development Plan shall also include building elevations showing how the proposed use of the property will meet the visual compatibility requirements listed below.

iii. **Visual compatibility requirements**

The design and construction of a new building and the design and construction of alterations to an existing building that is moved, reconstructed, materially altered or repaired shall be visually compatible with the adjacent residential buildings in terms of the following features:

1. **Architectural style**

Exterior changes to existing buildings shall be of the same residential architectural style as the original structure or of the style of nearby residential dwellings. New buildings shall be of the same residential architectural style prevalent in the surrounding neighborhood.

2. **Roof design**

Buildings shall have a roof design typical of the adjacent single-family residences.

3. **Off-street parking**

No more than two (2) parking spaces are permitted to be located within the front or side yard. All loading/unloading areas shall be located in the rear yard.

4. **Lighting**

Accent lighting is permitted only on the front façade of the building and shall be directed away from adjacent residential dwellings and lots.

iv. **Additional development standards**

1. Hours of operation shall be restricted to the hours between 7:00 a.m. and 9:00 p.m.
2. No outdoor storage or displays shall be allowed.
3. No more than three (3) employees shall be onsite at any time.

POLICY ANALYSIS:

Per the Zoning Ordinance, the proposed zoning district is created to:

“facilitate the orderly transition of properties originally developed for residential use to limited nonresidential uses. These properties are located in areas where increased automobile traffic, road widening or other factors have diminished residential viability, resulting in the need for a transitional area to buffer surrounding residential properties.”

The preceding definition fits the scenario for the subject property. Staff finds that a rezoning to OI-

T would not likely lead to negative impacts on the existing single-family residential neighborhood due to the limited range of uses permitted in the district.

ALTERNATIVES:

1. Adopt the MPC recommendation.
2. Deny the Petitioner's request.

RECOMMENDATION: The MPC recommends **approval** of the requested rezoning from an RSF-6 (Single Family Residential) zoning classification to an OI-T (Office Institutional - Transition) zoning classification.

Table 1: Comparison of Principal Uses for the RSF-6 (Existing) and OI-T (Proposed) Zoning Districts	
RSF-6	OI-T
Single-family detached	Single-family detached
Cluster Development	Agriculture, personal
Agriculture, personal	Community Garden
Community garden	Park, general
Park, general	Library/community center
Library/community center	Police/fire station or substation
Police/fire station or substation	Child/adult day care home
Child/adult day care home	Child/adult day care center
School, public or private (K-12)	School, public or private (K-12)
