

U.S. Bike Route 1

U.S. Bike Route 1 Background

- U.S. Bicycle Route System is a national network of public bike travel routes
- Over 13,000 miles are rideable today
- Intended for experienced on-road riders already these roads
- Partnership between Georgia Department of Transportation and the Coastal Regional Commission to apply for U.S. Bike Route designation
- Anticipates and supports future development of the Coastal Greenway, a multi-use off road path which follows the US 17 corridor

U.S. Bike Route 1 Designation

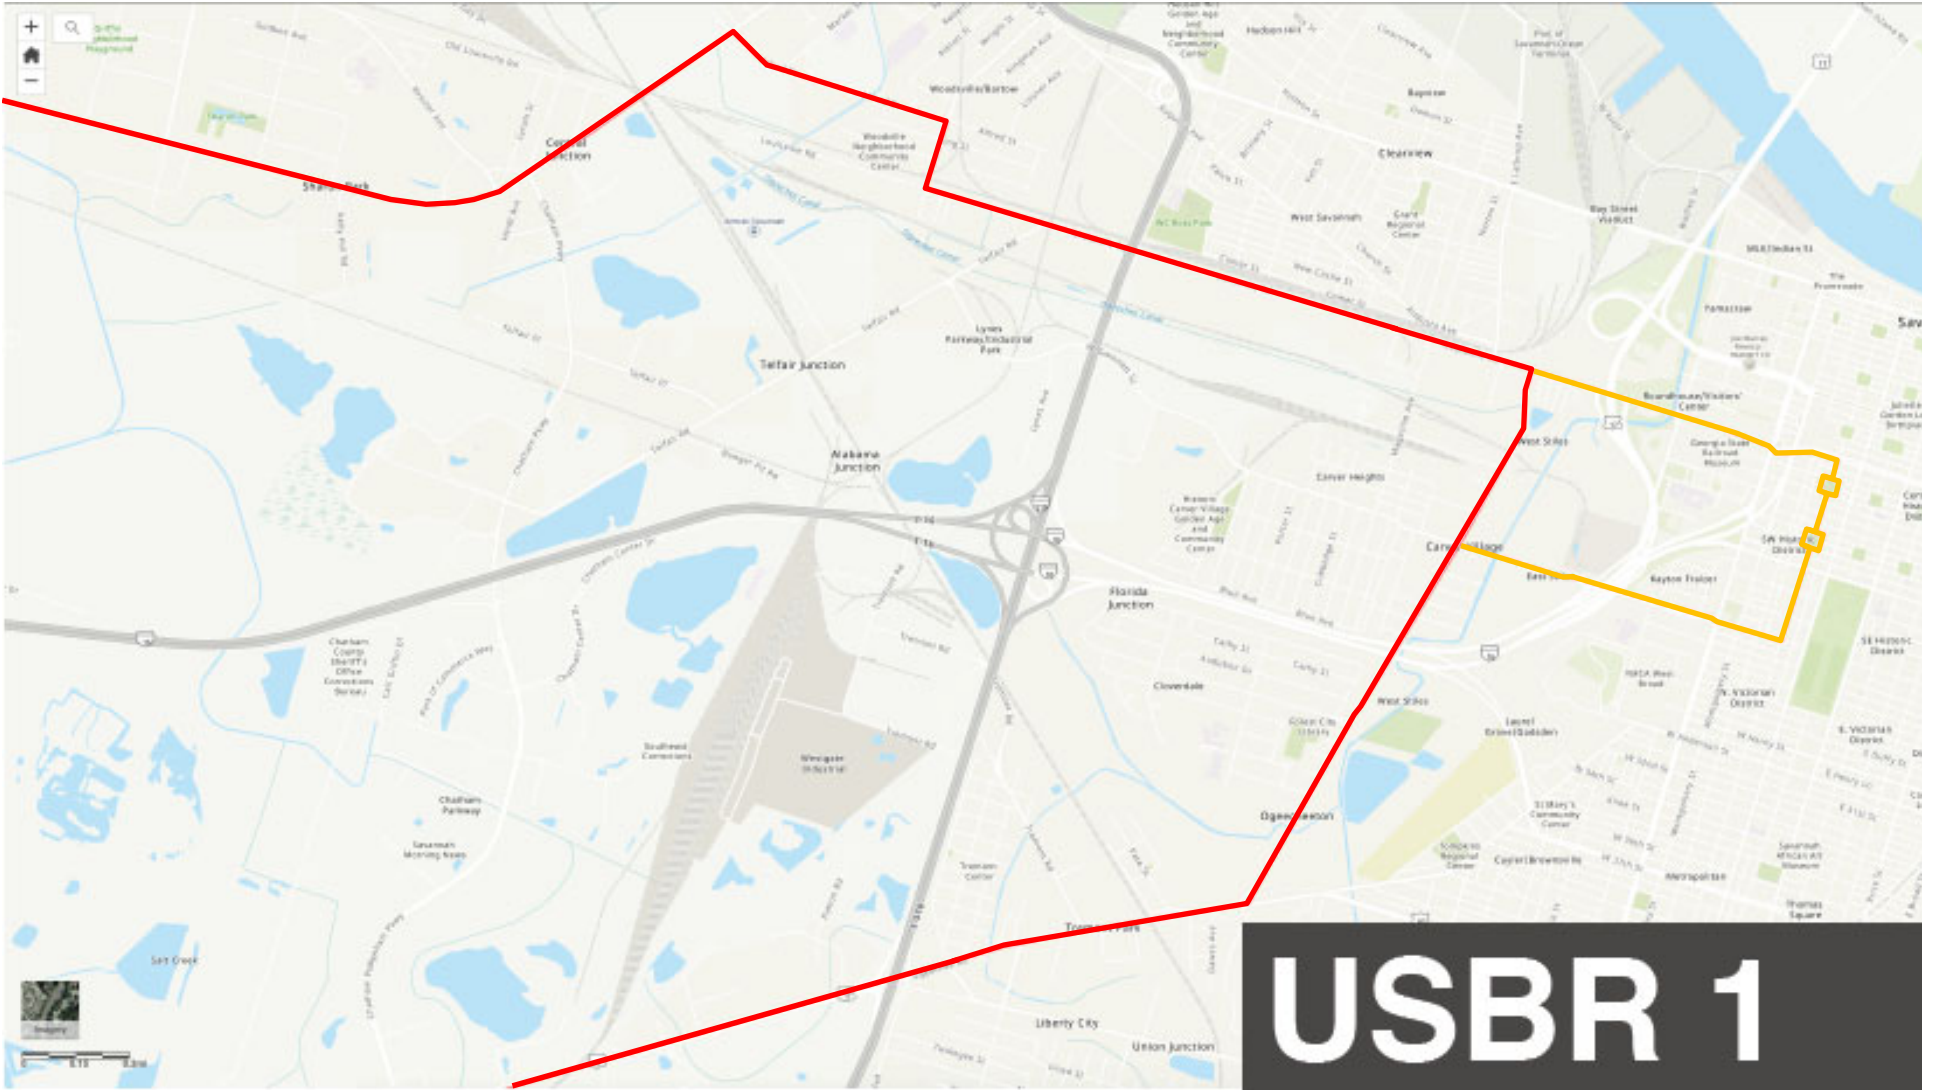

Benefits:

- Identifies the route formally
- Improve awareness and safety
- Stimulate the local economy along the route
- Assists with future state & federal funding to support the Coastal Greenway development and construction

Ownership & Responsibility:

- Local district GDOT office is responsible for installation and maintenance of wayfinding signage
- No street treatments or maintenance required by municipalities as part of this bike route designation
