	Total Scores	80.37	74.19	93.75

NOTES

Recommend approval to enter into consulting services agreement with CHA to conduct community engagement and engineering services for the Wetlands Preserve Park Educational & Interpretive Trail (Wetlands Preserve Park) in the amount of \$167,994.

The intent of the Wetlands Preserve Park is to provide enhanced green space, increased connectivity, walkability, and low-impact access to the preserved wetlands and ponds north of the railroad tracks in the Canal District through an interpretive trail system with coastal, environmental and historical information to residents and visitors in the area. The services include public engagement and the design of the trail. The feedback from public engagement will build upon the existing engagement from the Canal District Master Plan process and will inform public amenity design to include points of access, recreation, observation areas, and educational components.

This project will directly coordinate and integrate with the Savannah Springfield Canal Drainage Project which includes the Springfield Canal widening and the creation of flood plain mitigation and detention ponds.

These services are 50% funded by a Coastal Incentive Grant awarded to the City for this project on behalf of the National Oceanic & Atmospheric Administration (NOAA).

CHA Consulting(Savannah, GA) (B) \$167,994

Star Whitehouse(Atlanta, GA) (D) \$277,273

The Collaborative, Inc. (Atlanta, GA) (D) \$398,000

(B) Indicates a Local, non-DBE business, (D) Indicates a non-local, non-DBE business.
