NOTES

The contract is used to provide cover material to support operations at the Dean Forest Road Landfill. Landfill cover material is useful in controlling emission of offensive smells; it also deters pests, limits rainwater runoff, prevents waste fires, and discourages scavenging.

This increase is necessary due to the landfill increasing by 15 to 20%, also the landfill supply of substantial soil quantities from development projects at no cost has diminished.

The original contract was approved by Council on September 27, 2018 in the amount of \$1,632,000.

Recommend approval of Contract Modification No. 1 in an amount up to \$833,000 the total of this contract including the contract modification No. 1 is \$1,008,000.
