### NOTES

Recommend approval to procure a dryer replacement belt from Huber Technology in the amount of \$98,000. The belt is a crucial part of the bio-solids dryer used by the Water Reclamation Department. It is used to convey wet sludge throughout the length of the dryer for drying. The existing belt is frayed and is need of replacement.

This is a sole source purchase because the new OEM parts from Huber Technology must be used to maintain the warranty.

S.S.      Huber Technology (Huntersville, NC) (D)                      \$98,000

(D) Indicates non-local, non-DBE business. Recommend approval.
