<b>NOTES</b>		
<p>Recommend approval to procure ultraviolet disinfection (UV) equipment from Templeton and Associates in the amount of \$81,144.00. The ultraviolet disinfection (UV) equipment will be used by the Water Reclamation Department as a primary mechanism for the destruction of pathogenic organisms to prevent the spread of waterborne diseases to the environment and downstream users. The effectiveness of the ultraviolet (UV) equipment depends solely on the intensity of the ultraviolet radiation. The initial equipment has been in place for fifteen (15) years. The lamps are enclosed and safe in quartz sleeves and submerged according to water flow. The lamps are attached to a stainless steel frame which houses all the wiring. This is an environmentally friendly and safe upgrade that is needed to keep in compliance with the EPD.</p> <p>This is a sole source because the ultraviolet disinfection (UV) equipment works with the existing Trojan UV equipment. Delivery: As needed. Terms: Net 30 days.</p> <p>S.S. Templeton and Associates (D)(Suwanee, GA)      \$81,144.00</p> <p>A pre-bid conference was not conducted as this is a sole source procurement.
