MATRIX (IF APPLICABLE) N/A		
NOTES		
<p>Recommend approval to renew an annual contract for filter belts with Clear Edge Filtration in the amount of \$34,424. This contract will be used by the Public Works and Water Resources Department for the separation of solids and liquids in the dewatering process of sludge. These filters are stretched along a belt press and travel through a series of rollers which compresses the sludge, removing water that still maybe be trapped in the sludge that was not drained during the gravity draining zone. This allows each plant to transport “dried solids” versus liquid sludge to the landfill.</p> <p>This Contract was originally approved on October 24, 2019. This the first of three renewal options available.</p> <p>Clear Edge Filtration^(D)</p> <p>(D) Indicates non-local, non-DBE owned business.</p>
