NOTES

Recommend approval to award a contract for construction of the Force Main for Travis Field Water Reclamation Facility to Ruby-Collins, Inc. in the amount of \$7,992,950.

The contract is for the construction of a new 17,000-foot-long, 30-inch-diameter force main. This main is necessary to convey treated effluent from Travis Field Water Reclamation Facility, currently under construction, to the Savannah River. Construction of the new Travis Field Water reclamation Facility was awarded on August 29, 2019. The proposed force main will parallel Pipe Maker's Canal and will be installed within an existing utility easement located in the canal right of way. The methods of construction will include direct bury, jack and bore, and horizontal directional drill. The approximate location of the proposed force main is shown on the attached project vicinity map.

The bid was advertised, opened, and reviewed. Delivery: As needed.
