Security Plan

General Information

Our Inn is open year around. Doors are unlocked at 7am and locked at 8pm for the remainder of the night. We have 10 guest rooms and have a maximum of 20 people staying with us at any one time. We do not allow children under the age of 14. Only guests staying with us are allowed into the building. There are security cameras monitoring the parking lot and entry to our checkin area. Guests are given a code to allow access to the Inn after the Inn is closed at 8pm. The parking lot is beside our building, lit, and monitored by the security camera. Guests are given a pass to ensure only registered guests are parked on our lot. Violators are towed. There is no other access to the interior of the building as locks are on all the access points to the rear year.

We do not pour wine for the guest's enjoyment. Only guests that are registered with us are allowed to purchase wine. When in question as to one's age, a copy of a driver's license is required and the age is calculated at the front desk.

The Inn is equipped with fire alarms and evacuation routes are posted. The manager in charge insures all are out of the building when required. This includes mandatory storm evacuations as well as fire or gas odors. The Inn is also equipped with ADS which automatically alerts the fire department as to any emergency. Cooking is not allowed in the rooms with the exception of one room in the cottage. This room is equipped with a smoke detector as are all of the rooms.

The emergency phone numbers are posted in the office area. This include police, fire, and EMS. Also posted are all numbers for upper management.
