

HEAVY EQUIPMENT RENTALS

EVENT NO. 7209

SPECIFICATIONS AND SPECIAL CONDITIONS

- 4.0 The purpose of these specifications is to describe requirements for on-going temporary use of bulldozer and other heavy equipment and operator services for the City of Savannah.

To submit pricing electronically for this event, enter pricing for each line item shown under the lines tab on the event summary. To enter pricing manually, complete the attached bid proposal form. Manually submitted bids must be submitted on the bid proposal forms contained in these specifications in order to be considered.

A pre-bid conference has been scheduled to be conducted at the Purchasing Office, 301 West Oglethorpe Avenue, Savannah, Georgia, 31401. This meeting will allow contractors to discuss the specifications and resolve any questions and/or misunderstandings that may arise with City staff. You are invited to attend.

- 4.1 Work will be on an "on call" basis as necessary when City equipment is inoperative. Response time is of particular importance. The City requires response within 24 hours of call to contractor. Additionally, on an as-needed basis, weekend work may be required of the contractor. The name and contact number of individual to respond to service calls shall be provided by the contractor.
- 4.2 Equipment rental rates will cover rental per hour with operator (unless otherwise specified) and shall include all operating and maintenance costs associated with the equipment. In addition, delivery and pickup charges shall be included in the price on the bid proposal form, if charged.
- 4.3 Heavy construction equipment operators on the landfill staff are fully qualified and experienced in operation of this equipment for dozer, loader, excavator, and backhoe rentals. On occasion, the City will require the services of a qualified operator to operate City owned equipment. Hourly rates for such an operator shall be indicated on the Bid Proposal Form.
- 4.4 Approximately 95% of the work to be performed will be pushing, compacting, and covering refuse at the City's primary landfill located on Dean Forest Road. On-road vehicles will be used for the collection of refuse and the delivery of carts.
