July 2019 Newsletter

Jess Mathewson, MA
Youth to AdM Program Manager (YIA)

"From its genesis, partnership has been the foundation of The Front Porch. I had the pleasure of sitting at many round tables during the planning stages where heads of agencies were represented, hammering out the details for a successful community serving agency. The planning stage also focused on hearing the voices of the individuals to be served, with focus groups allowing youth and parents to make key suggestions, including our name. Today, as The Front Porch celebrates being nine months old, I am able to witness the daily collaboration being done by the staff in the building who represent juvenile justice, mental wellness, education, and social reform. Furthermore, these staff all strike up the same partnership with the youth and families we see each day, working together to build a strong foundation for their future."
