NOTES

Recommend approval to award an annual contract for water meters to Badger Meter, Inc. in the amount of $1,466,100.00. The water meters will be used by the Water Distribution Department to replace meters that are past their useful life and for the installation of new water services for public and private development. The meters are maintained in inventory at the Central Warehouse and by the Water Distribution Department, while meters are also purchased by contractors for private development. The existing City of Savannah water meters are a combination of both automated meter-radio read (AMR) units and direct read meters. This contract allows for the installation of new automated meter-wireless-infrastructure units to replace the AMR and/or direct read meters. The low bidder was selected for all items except one, where the apparent low bidder did not include the cost for cellular endpoint in its cost proposal.

This bid was advertised, opened, and reviewed. Delivery: As Needed. Terms: Net 30 days. The bidders were:
