Casa Guava Security Plan

- 1. Identification of days and hours of operation.**

Currently, hours of operation are 8:00am-3:00pm daily; excluding Tuesday. Upon receipt of an Alcoholic Beverage License, hours will be 9:00am-5:00pm Thursday- Monday.
- 2. Specific measures and procedures to address crowd management both inside and outside the premise.**

Maximum occupancy load, including staff, is 24. Due to the intimate size of the restaurant, crowding is difficult. In the instance that the occupancy load is exceeded, the owner and the general manager will be responsible for communicating to incoming guests that they will need to wait outside until space is available.

 - a. Loitering signs?** A no loitering sign is posted at the front door. The sign states that violators will be prosecuted to the full extent of the law.
 - b. Cameras?** We have 2. One is mounted above the front door to monitor activity directly outside, including the sidewalk. The other will be mounted inside to monitor the dining area and the counter for service.
- 3. Identification of any parking areas owned or controlled by establishment.**

The only parking available is metered street parking.
- 4. Means of controlling access to the premises and parking area.**

Access to the building is limited to one door. It is located directly in front of the service counter and monitored by the manager on duty (MOD) during hours of operation. The entrance is on Drayton St and the limited sidewalk area naturally limits the number of guests able to stand near the doorway without blocking the flow of foot traffic. When necessary, the owner or MOD will encourage guests to stand in a line to ensure orderly behavior and the ability for foot traffic to safely pass.
- 5. Security staffing.**

Due to limited hours of operation and limited entry points to the building, security staffing is not required at this time. If necessary, we will employ off duty police officers to assist with crowd control.

6. **Measures used to combat underage consumption of alcoholic beverages.**

All guests will be required to show proof of ID prior to receiving alcoholic beverages.

Date for legal drinking age will be calculated by MOD and posted conspicuously for staff on duty to reference while checking IDs.

7. **Measures used to distinguish between patrons who are over and under 21, where applicable.**

This establishment is family friendly and guests under 21 will be allowed in during the hours that alcohol is served. All guests ordering alcohol will be required to show and ID prior to receiving an alcoholic beverage. MOD and owner will be responsible for monitoring guest safety and to ensure guests under the legal drinking age are not consuming alcohol. If MOD or owner is presented with a situation in which a minor is consuming alcohol, the MOD or owner will require the beverage to be discarded and guests will be asked to leave the premises.

8. **Measures and procedures to combat the risk of fire.**

There is an up-to-date fire extinguisher on premises, smoke detectors installed on both levels of the restaurant and a recently passed inspection from the fire marshal.

Additionally, kitchen is removed from guest areas and guests are not permitted to use any form of lighters, matches or similar objects on premises.

9. **Discuss matters related to managing emergencies and coordination with public safety.**

Upon an emergency, staff will assist all patrons outside of the front door. The owner will be responsible for turning off all equipment at risk for causing fires or burns. The MOD will be responsible for contacting local emergency departments to report incident.
