

A Taco Affair Low Country SECURITY PLAN

401 W Hall ST, Savannah, GA, 31401

August 1, 2023

1) Identification of days and hours of operation: What days of the week is your business open?
For each day what time is your business open?

Monday - Sunday 11am - 9pm

2) Specific measures and procedures to address crowd management both inside and outside the premise: How do you make sure crowds inside your establishment remain orderly? How do you ensure crowds outside (i.e. lines, smokers, etc.) your establishment remain orderly?

a. Do you have no loitering signs, if so how many, where? **There are no signs posted, but with the direction of the police department, we could post them where needed.**

b. Do you have cameras? If so, how many? Inside / outside or both? **4 cameras are mounted inside the establishment. None outside**

3) Identification of any parking areas owned or controlled by establishment: Where do your customers/patrons park when they're at your establishment?

On street parking is available. Any parking spots owned by the building are available only to residents of the building with a remote for the gate.

4) Means of controlling access to the premises and parking area: How does your establishment control who comes in and out of your establishment? How do you control who uses your parking areas?

a. Examples would be: cameras, security guards, signs, or gates. **Private parking is available to tenants only, with remotes used to open gates. Plenty of on-street parking is available to customers.**

5) Security Staffing: Do you use Security Guards? If so, how many? How often do you use them? Were they trained "in house" or by a company? If they were trained by a company, provide the name(s). Do you employ Off-Duty SPD officers? If so, how many and how often?
We do not plan to use hired security.

6) Measures used to combat underage consumption of alcoholic beverages: What do you/your employees do to ensure that individuals under that age of 21 are not allowed to buy/consume alcohol at your establishment? Pick one and EXPLAIN it.

a. Clearly state how you card customers. Do you have servers calculate the age by doing the math in their head? OR

b. Do you have a scanner where you scan the ID and it tells the employee how old the subject is? OR

c. Do you enter the date of birth in a point of sale and it tells the employee the age of the customer?

Upon opening, we will ID customers by employees physically taking the ID from the customer and calculating the age. We will be using Toast point of sales system. They have a 3rd party integration system that can scan the customer ID into the system that not only verifies the age, but makes sure the ID is valid. We would like to take advantage of this technology shortly after. Also, once information is entered into Toast, it keeps track of customer specific information such as ID and credit card.

7) Measures used to distinguish between patrons who are over and under the age of 21, where applicable: Does your establishment allow individuals under 21 to enter? If so, how do you identify people who are 21 and over from those who are under 21 years of age?

a. Clearly indicate if you have wrist bands/hand stamps or card subjects every time they order a beverage. Is there another type of measure taken to prevent underage sales?

Since we are a dining establishment, we allowed patrons of all ages. When an order for alcohol is placed, we will check ID. Any groups where multiple alcoholic beverages are placed, a group check will be done to ensure all members are 21 or over.

8) Measures and procedures to combat the risk of fire: What is being done at your location to help ensure there are no accidental fires?

Fire alarms and suppression systems are all in place. Exit signs are clearly hung and lit up. Suppression system is inspected and functioning properly

9) Discuss matters related to managing emergencies, such as fires, evacuation tactics, assignment of employee duties during emergencies, and coordination with public safety: In the event of an emergency how is your staff trained to evacuate patrons? Do certain employees have certain duties during emergencies? How does your establishment contact/ work with police and EMS during an emergency?

Our location has 3 points of exit. In case of fire, the building's suppression system will be activated and alarms will sound and notify fire and police. Employees will be responsible for ensuring all customers exit the building properly. Upon hiring, it will be clearly stated as one of their job responsibilities.
