

Safety Plan Form

Name: Ronald J Burris

Establishment: Savannah Flip Flop Shops LLC

Address: 100 Bull Street, Savannah Ga, 31401

Date: 1/28/2026

1. *Identification of days and hours of operation.*

Monday thru Sunday 10 am to 6 pm

2. *Specific measures and procedures to address crowd management, both within and outside the premises.*

We are a shoe store so crowds normally don't arise at this location however in the event that they do happen we will have employees that could let only the specific amount allowed (currently 35 people) by the fire inspector in the door. In the event there are more than 35 people we will form a line outside. We have one no loitering sign near the front door. We have 4 cameras. 3 are on the showroom floor and one in the office. Myself (Ron Burris) has access to the cameras on my phone however in the office there is a monitor with live access to the cameras.

3. *Identification of any parking areas either owned or controlled by the licensee.*

We do not have any parking, all parking will be city street parking.

4. *Means of controlling access to the premises and parking areas.*

Employees will use discretion to allow only individuals in that are shopping for shoes. We do not allow loitering on the premises. We only have one door in and out for staff and customers to use. We do not have parking.

5. *Security Staffing.*

No security staffing and will update if needed.

6. *Specific measures and procedures to combat underage consumption of alcoholic beverages.*

Every individual no matter of age will be asked for identification and only those with a valid id will be allowed to receive and consume alcoholic beverages on premises. We will be using mental math. If someone underage asks an individual overage to get a drink for them we will not serve the older patron.

7. *Specific measures and procedures to combat the risk of fire.*

We have fire extinguishers and an emergency exit. This store doesn't have any cooking equipment or anything combustive.

8. *Discussion of matters related to managing emergencies, including fire, evacuation tactics, assignment of specific emergency management duties to personnel, coordination with public safety officers and emergency medical matters.*

Owner is the only employee on staff. Depending on the emergency the proper channel will be called (fire, ambulance, police). Emergency personnel is always welcome in the store at any time. Evacuation is out the front door. In the case that it is blocked we have a side emergency exit.

9. *Where applicable, discussion of measures the licensee will undertake to visibly distinguish between patrons under and over the age of 21.*

Everyone will be identified by their valid driver's license or passport. If an ID appears to be fake we will not accept it as a form of validation. We will be using mental math. If someone underage asks an individual overage to get a drink for them we will not serve the older patron. In the event of a fake ID provided we will confiscate it and call law enforcement.
