

Public Safety Plan

Name: Marguerite Seckman

Establishment Address: 2418 DeSoto Ave, Savannah GA, 31401

Date: 5/1/2024

- 1) *Identification of days and hours of operation:* Superbloom is open Tuesday through Sunday from 9:00am to 8:00pm.
- 2) *Specific measurements and procedures to address crowd management both inside and outside the premise:* Superbloom is a coffee shop establishment so our customers order at the register and have a seat at one of our many seating options. We do not create a line outside of the door before entering the establishment. We do not have any no loitering signs, but we do have 2 cameras inside the shop.
- 3) *Identification of any parking areas owned or controlled by the establishment:* Our customers park on the street in front of our establishment or they park on the neighboring streets which offer free parking options.
- 4) *Means of controlling access to the premises and parking area:* The service counter at Superbloom is very close to the entrance & allows for a direct line of vision to monitor who is coming in and out of the establishment. The parking options are not private.
- 5) *Security Staffing:* Superbloom does not use security guards.
- 6) *Measures used to combat underage consumption of alcoholic beverages:* Upon approval of a wine permit, Superbloom will purchase an I.D. scanner to prevent any underage drinking or use of false identifications. The employees are always moving throughout the establishment to monitor the customers & prevent any illegal activity from occurring.
- 7) *Measures to distinguish between patrons who are over and under the age of 21, where applicable:* Superbloom is a food service establishment and allows customers under the age of 21 to enter. Superbloom will scan an I.D. with every single purchase of an alcoholic beverage because customers have to order at the register.
- 8) *Measures and procedures to combat the risk of fire: Superbloom offers food, but does not cook on premises:* We offer an assortment of vegan, gluten free, and raw foods which prevents the risk of kitchen equipment causing a fire. Superbloom has emergency exit signs & smoke detectors.
- 9) *Discuss matters related to managing emergencies, such as fires, evacuation tactics, assignment of employee duties during emergencies, and coordination with public safety:* Superbloom employees are responsible for locating the fire extinguisher, alerting any customers of the emergency, and assisting with evacuation through either of our emergency exits. Once all patrons are safely outside of the building, the employee is also required to call 911 so emergency vehicles can arrive on scene as soon as possible.
