### NOTES

The increase in the renewal is due to increase of pump and motor operations, along with continual increase of preventative maintenance and lift station part replacements. The City presently has 210 operating lift stations, and this is a major work program to assure continuous station operations.

The 2020 contract renewal was for \$800,000 which has been used.

This is a Sole Source contract because Xylem Water Solutions USA is the only vendor that can provide the Flygt pumps and parts for the City's Lift Stations.
