1. Days and hours of operation:

The business is open from 10:00 a.m.. to 9:00 p.m. Sunday through Thursday; and it is open from 10:00 p.m. to 10:00 p.m. on Friday and Saturday.

2. Specific measures and procedures to address crowd management both inside and outside the premises:

The business will have 2 employees on the premises during peak hours of operation. Out of them 1 employee will be behind the registers for faster check out process so patrons can be in and out quickly to avoid creating crowd inside the store. The 2nd employee will be helper/watcher to the whole operation. Staff will also monitor the outside area of the premises to make sure it is not overly crowded to cause any safety hazards or nuisance to pedestrians walking by. Our DVR holds 4 days of security camera footage. These two people have camera access.

3. Identification of any parking areas owned or controlled by establishment:

This business doesn't have designated parking. Customers can utilize street/public parking.

4. Means of controlling access to the premises and parking area:

The business controls access to the premises by having Extra staff during peak hours and staff to monitor who enters the property. Currently the store has 6 cameras inside the store. We have two locks at the front door that will secure the front door in afterhours. Store does not have any back door.

5. Security staffing.

This Business being about a retail store, at this time it does not require any security staff, in future if we think we may need any security staffing, we may think about hiring a doorman.

6. Measures used to combat underage sale of alcoholic beverages:

All employees are trained to check for age verification by checking IDs and doing mental math for age verification and to monitor the premises for. All customers will be asked to show ID for age verification. We are also looking into upgrading the current POS system once we are established, where the clerk has to enter DOB into POS to make a sale.

7. Measures used to distinguish between patrons who are over and under the age of 21:

Clerk has to check ID for age verification, and that will distinguish patrons who are over and under age of 21. All employees will be required to take 360 training courses for Alcohol server training for retail setting within one week of hire.

8. Measures and procedures to combat the risk of fire:

The premises will be equipped with illuminated Exit signs at all exits of the premises. In addition, a fire extinguisher will be on premises to put out fires. The premises also do not permit smoking inside, which reduces the risk of an accidental fire. Employees will have basic fire safety training to handle a situation if there was a fire. There are 2 fire extinguishers, one in the back storage room and one in front behind the counter.

9. Discuss matters related to managing emergencies, such as fires, evacuation tactics, assignments of employee duties during emergencies, and coordination with public safety:

The employees will be trained by basic fire safety guidelines to handle fires and evacuations. The employees have phone access to communicate with one another right away if there is an emergency so that one employee can contact the police or EMS during an emergency, while other employees evacuate patrons. There will be 2 phones on the premises in different locations to use to contact the police and EMS. In addition, most, if not all, employees have cell phones.
