

PJ's Corner (PJ THAI)

– Alcohol Sales Security Plan

Ensuring Safety and Compliance

At PJ's Corner, our Alcohol Sales Security Plan is designed to ensure a safe, welcoming environment for all patrons while adhering strictly to all legal requirements for alcohol service. This plan outlines measures and procedures implemented across various areas to promote safety, prevent underage drinking, and effectively manage emergencies.

1. Identification of Days and Hours of Operation

PJ's Corner operates six days a week, from Wednesday to Monday, and remains closed on Tuesdays. The hours of operation are structured to accommodate both weekday and weekend diners:

- Weekdays (Wednesday, Thursday, Monday): 11:00 AM – 3:00 PM & 4:30PM — 10:00PM
- Weekends Friday: 11:00 AM – 10:00 PM
- Weekends (Saturday— Sunday): 11:30 AM – 10:00 PM

These hours ensure that alcohol service aligns with our business model as a dine-in restaurant, providing a controlled environment for our patrons.

2. Crowd Management (Inside and Outside)

Maintaining order and safety within and around the premises is critical. PJ's Corner implements the following crowd management strategies:

- Staff actively monitor the dining area to ensure guest behavior remains safe, respectful, and compliant.
- “No Loitering” signs are prominently displayed near the entrance to discourage non-patron gatherings.
- Surveillance cameras are installed—two inside the restaurant and one outside—to keep track of guest activity.

- Alcohol service is denied to any guest exhibiting signs of intoxication.
- PJ's Corner does not operate lines, cover charges, or transitional periods, reflecting its exclusive focus on dine-in service.

3. Parking Area Identification

Parking Area Identification

PJ's Corner does not provide private parking. Patrons utilize public street parking and nearby public parking lots around Abercorn Street and Oglethorpe Ave.

4. Access Control

The restaurant operates with a single front entrance. Staff members monitor all guest entries and exits during operating hours to ensure safety and compliance. There are no gated or private access zones, emphasizing an open and welcoming environment for all patrons.

5. Security Staffing

Due to the establishment's small size, PJ's Corner does not employ professional security guards. Instead, staff are trained to check IDs, observe guest behavior, and respond appropriately by contacting the Savannah Police Department if any disruptions or emergencies occur.

6. Underage Alcohol Consumption Prevention

To prevent underage alcohol consumption, staff rigorously check all customer IDs before serving alcohol. Guests under 21 are never served alcohol. Additionally, signage at the register and bar area clearly warns that valid identification is required for alcohol purchases.

7. Fire Risk Procedures

PJ's Corner prioritizes fire safety by maintaining all kitchen equipment regularly to minimize fire risks. Fire extinguishers are strategically placed in key areas within the restaurant, and staff are trained in basic fire safety protocols, including emergency equipment shut-down procedures.

8. Emergency Management Procedures

In emergencies, designated staff members are responsible for guiding guests to exits and contacting 911. Responsibilities are pre-assigned among the team—one staff member contacts authorities, while others oversee guest evacuation. Emergency contact numbers are clearly posted in staff areas for quick reference.

9. Measures for Identifying Minors

PJ's Corner welcomes guests of all ages, but alcohol is strictly served only to those aged 21 and over following a valid ID check. Wristbands or stamps are not used, as the restaurant maintains a family-style dining format that fosters an inclusive and comfortable atmosphere for all patrons.
