

Business Operation

Superbloom is a coffee shop in the Starland District which is a thriving artist community. This space is based around supporting local artists, their products, and creating a neighborhood space where locals can come together. We support over 40 Savannah makers in the space and 60% of shop sales go towards supporting the Savannah artist community. We host quarterly markets that give another opportunity for creators in the area to advertise their work, generate sales, and to connect with other people in the area.

We have become known for our colorful, superfood, vegan lattes like beetroot cocoa, turmeric ginger, and purple sweet potato. Along with standard lattes and teas, we offer an assortment of vegan, gluten free, and raw food items like raspberry matcha bars, and avocado chocolate mousse.

We are hoping to expand our menu to offer "clean" wine beverages. This would consist of sulfate free wines, low sugar sangria, and kombucha spritzers to stay true to our healthy drinks.

Our customers love to sip on the lavender rose latte while they shop all of the locally made products that are unique to Savannah! We encourage our customers to enjoy a healthy treat while reading a book in our seating area before exploring the rest of the Starland neighborhood!
